# IPORT DATA SHEET

CONNECT PoE+ Network Adapter

CONNECT POE+ NETWORK ADAPTER PROVIDES RELIABLE HARDWIRE CONNECTIVITY AND POWER TO IPAD AT ALL TIMES

The reliability of hardwired connectivity alongside the ease of install with PoE+ to enable your iPad solution to remains powered and connected at all times.

POE+ NETWORK ADAPTER

CONNECT PoE+ Network Adapter is designed to upgrade the CONNECT and CONNECT PRO Line of products to enable hardwired Internet data and power over PoE+ using a single Cat 5 cable. By providing security of a direct connection to your network and eliminating Wi-Fi dropout, you can be assured your iPad is always charged and connected to your network when attached to an IPORT CONNECT Station or Mounting solution.
